

Complete Ricemill Management Solution

Cloud-based Web & Mobile application designed to control every aspect of
your milling operations with zero hassle.

Core Technology

Cloud Based

100% secure cloud infrastructure.
Access your ricemill data from
anywhere, anytime without local
server dependencies.

Web & Mobile App

Manage operations on-the-go.
Fully synchronized web dashboard
and mobile application for
ultimate flexibility.

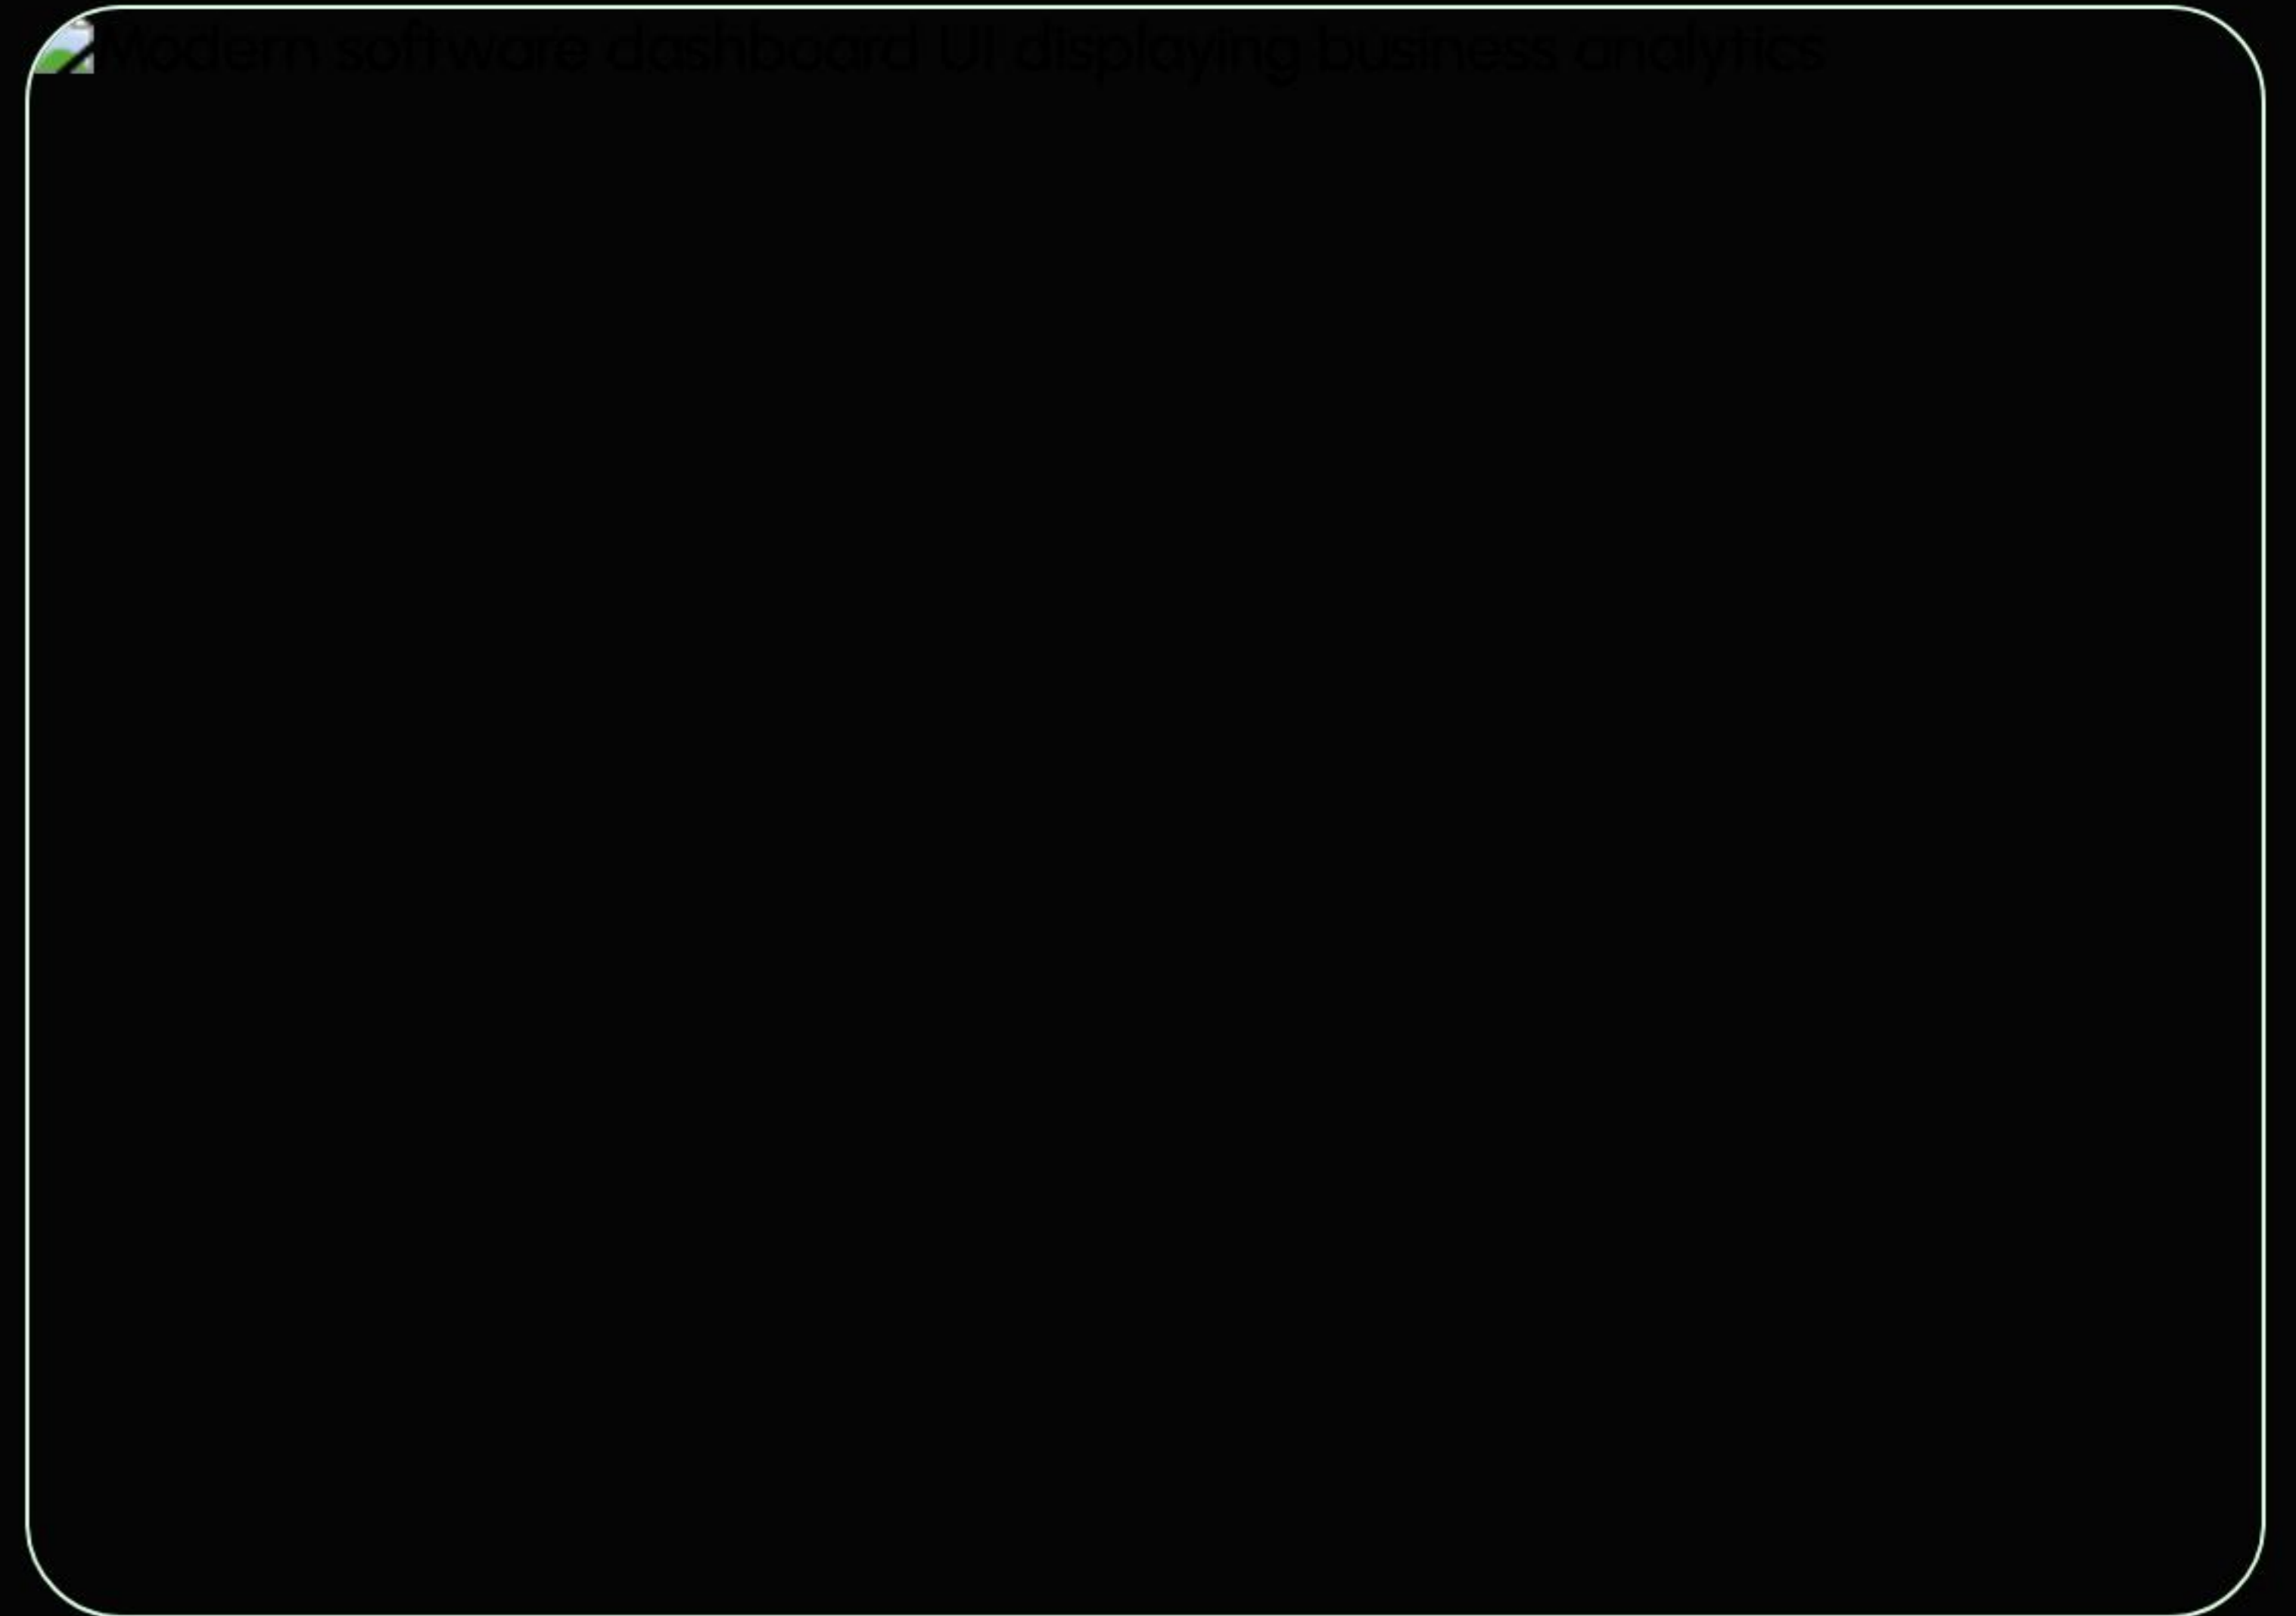

Real-Time Stock

Live tracking of your inventory.
Know exactly how much paddy
and processed rice is available at
any given second.

Super Admin Control

- **Monitoring for Super Admin:** Get a bird's-eye view of all daily operations and user activities.
- **Track Software Workflow:** Keep tabs on every process from entry to dispatch in a streamlined flow.
- **Role-Wise Menu Privilege:** Restrict or grant access to specific menus (like billing or stock) based on the staff's role.

Smart Entry Modules

Sale & Purchase Orders

Create, manage, and track all your purchase orders (Paddy) and sale orders (Rice) in one centralized module.

Government DO Entry

Dedicated module for Government Delivery Orders. Maintain perfect compliance and track government quotas effortlessly.

Automated Billing

Generate fast, accurate bills linked directly to your dispatch entries, eliminating manual calculation errors entirely.

Logistics & Transport

- ✓ **Dharamkata (Weighbridge):** Direct integration for accurate weight entries.
- ✓ **Loading/Unloading Plan:** Schedule your daily dock operations.
- ✓ **Loading/Unloading Entry:** Real-time capture of gate movements.
- ✓ **Transport & Vehicle Manage:** Track trucks and driver details.
- ✓ **Hamali Payments:** Auto-calculate and manage labor wages accurately.

Complete Production Manage

End-to-End Milling Control

Monitor the entire transformation process from raw paddy to polished rice. Track yields, broken rice percentages, bran, and other by-products.

Our production module ensures you know exactly what is happening on the factory floor, helping you optimize machine efficiency and reduce invisible losses.

Advanced Reporting

All Reports & Filters

Generate detailed Sale, Purchase, Ledger, and Stock reports instantly. Use powerful custom filters to view exact date ranges, specific parties, or item qualities.

PDF & Excel Exports

Every single record and report in the software can be exported to PDF for sharing via WhatsApp/Email, or to Excel for deeper accounting analysis.

Ready to Upgrade?

Experience seamless ricemill operations. Book your free personalized software demo today.
